LAMPBLACK, PAINT, AND LACQUER  
INDUSTRY EXPANDS

NEW LAMPBLACK FACTORY BEGINS PRODUCTION -- Rad, No 280, 23 Nov 49

In the vicinity of Bakar, near Rijeka, the "Pecina" Lamplack Factory has started test production. By 29 November 1949, four of the ten furnaces will be in operation. The lamplack to be produced at the factory will be used in the synthetic rubber and shoe industry.

The factory is the second of its kind in Yugoslavia. Together with the Kutin factory, it will virtually satisfy the needs of Yugoslavia.

PAINT AND LACQUER FACTORY ENLARGES -- Vjesnik, No 1419, 22 Nov 49

The Chromos Paint and Lacquer Factory in Zagreb will open new departments for nitro-alcohol and alcohol-bakelite, and one for kitchen varnish, all of which will increase the capacity of the factory by 300 percent. One part of the bakelite department produces a new item, "tegofilm," which is a fine glue used by the aircraft industry.

All the construction work will be completed by 1 January 1950.
